The **Faro** Convention: the **way forward** with heritage

The Council of Europe Framework Convention on the Value of Cultural Heritage for Society (**The Faro Convention, 2005**) defines cultural heritage as *"a group of resources inherited from the past which people identify, independently of ownership, as a reflection and expression of their constantly evolving values, beliefs, knowledge and traditions. It includes all aspects of the environment resulting from the interaction between people and places through time".*
